HARD HAT STICKERS

Dentec has developed a series of high quality vinyl stickers that are weather and UV resistant, and will attach to any hard hat. We offer standard or reflective background materials in circles, triangles and various strip sizes that can be imprinted. No set up or plate charges, full colour logo, corporate messages, employee name or any combination thereof for one set price. Small fee applied for sticker application to our hats.

Ideal solution for customers who wish to logo hard hats in low volumes. Customer is not required to order or carry excess inventory that is required to reduce the pricing of imprinted hard hats.

Simple Application! Apply the stickers for your customers, or simply sell the stickers to them, and have your customers apply the stickers to their hard hat themselves. **It really is that simple!**

Dentec stocks a series of messages that can be used by any company to easily identify employees, visitors, or contractors on a worksite. Customized stickers are no problem, we are able to reproduce any logo, picture or message with customer supplied digital artwork.

***Please note:** It is important that you do not place too many stickers on a hard hat. It will prevent the user from being able to visually detect scratches, cracks or marks that could reduce the hard hats ability to protect an individual from impact or penetration hits to the head. Please check with your hard hat manufacturer before applying any sticker to a hard hat.
