GERM ATTACK

A target icon consisting of a blue circle with a white crosshair and a small red circle in the center.

Stay Safe This Season
With Alcohol Free Foam
That Kills 99.9% Of Germs
That Cause Disease

**99.9% efficacy ratings in
independant studies against
Coronavirus, Norovirus and MRSA**

THE COVID VIRUS IS STILL ACTIVE AND TRANSMISSION RATES REMAIN HIGH

As schools re-open, restrictions ease and masks are removed in public settings we continue to see an uptick in the spread of more common viruses and bugs. That's why it's important to continue to stay diligent and maintain best practices and proper hand washing and sanitization.

According to the CDC, *"Keeping hands clean is one of the most important steps we can take to avoid getting sick and spreading germs to others. Practicing safe handwashing like this can help keep you free of not only COVID-19 but also many other viruses, bacteria, and flus. At the very least, both now and post-pandemic, you should use hand sanitizer more to ensure your safety."*

X3 CLEAN: ALCOHOL FREE AND ONLY 4 INGREDIENTS

Manufactured in North America and headquartered in Unionville, ON, [X3: Germ Attack Hand Sanitizer](#) is Health Canada approved and FDA-registered, available in both spray and foaming formulas with 0.13% Benzalkonium Chloride solution. Numerous studies have proven that BZK kills 99.9% of germs, **including COVID**, making it equal to or better than alcohol-based formulas.

- Non-drying
- Non-irritating
- Non-flammable
- Paraben-free
- Not Sticky
- Vegan Friendly

ALCOHOL FREE IS MORE EFFECTIVE

Alcohol-based gel hand sanitizers (62% Ethyl Alcohol) actually become less effective after only the third application. The reason: alcohol removes natural protective oils and dries out the skin as it evaporates, causing microscopic cracks and crevices. As the skin becomes drier and more damaged, dangerous germs remain trapped within the cracks and fissures.

KILLS 99.9% OF GERMS

80% of all infections are transmitted by the hands. Germ Attack™ Hand Sanitizer uses only the most advanced pharmaceutical grade antimicrobial ingredients and emollients. Available in both spray and foaming formulas with a 0.13% Benzalkonium Chloride solution. For less than a penny per pump, your students, teachers, employees, customers, and patients are protected from harmful germs. Perfect for any environment: Education, Health Care, Day Care, Food Service, Banking, Workplace, Government, Corrections, Emergency Services, Airline, Travel, Spa and more.
